## E-Safety: Jargon Buster

### Cyberbullying

Cyberbullying is a form of bullying that is made possible by the use of technology e.g. making nasty comments when playing an online game with others.

### Digital footprint

Your digital footprint is the trail you leave behind in the online world. This could be photographs, personal information or anything that has been written by or about you.

**Firewall** A firewall is a tool which checks information coming into or going out of a network/computer to see if it meets pre-determined criteria. If the criteria aren't met, the information will be rejected by the firewall. Many schools have firewalls to protect pupils from inappropriate content.

## Christmas Jumper Day

There have been lots of Christmas Jumpers today – the school council have worked hard to promote this within school 😊 Today we raised £101.00

**EVERY PUPIL** in school has been nominated for **STAR of the WEEK** for all of their hard work with the Christmas Plays and Church Nativity!
