

# Northumberland PREVENT Pathway

**PREVENT** is about working together to safeguard and support people who might be susceptible to radicalisation.

If a person is being radicalised, their day-to-day behaviour may become increasingly centred around an extremist ideology, group or cause. Some of the signs of radicalisation could be:

- spend increasing amounts of time talking to people with extreme views (this includes online and offline communication)
- changing their style of dress or personal appearance
- losing interest in friends and activities that are not associated with the extremist ideology, group or cause
- possessing material or symbols associated with an extreme cause
- trying to recruit others to join the cause

**I'm concerned someone is at risk of radicalisation. What should I do?**

- Report your concerns to the local authority that the person you're worried about lives. You can find the contact numbers and where to get in touch below.
